DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 16-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 16 is rejected because the disclosure lacks clear written description in the description of how to associate an index value into a table of pre-configured sets of communications session parameters, index value referencing one of said sets which approximates specified communications parameters or how to hash value combined with said index value, said hash value comprising a hash of a network address, a constant seed and current date and time data.

Allowable Subject Matter

3. Claims 1-15 are allowed.
